Quiz 1 – Very Important Quiz!

Practice Quiz, 5 questions

1.

1 point

If I miss an assignment deadline or fail an assignment, I fail the course.

○ True

○ False

2.

1 point

This is a completely self-paced course. The deadlines don't matter at all!

○ True

○ False

3.

1 point

I can go through the course faster and complete it faster!

○ True

○ False

4.

1 point

Where can you get access to the example source code used in the course and the Lecture Slide PDFs?

○ You **CAN NOT** have it! It's reserved only for **special people. VERY special people**! You can ask and beg on the discussion forums, but we still won't give it to you. 😐

Quiz 1 – Very Important Quiz!

Practice Quiz, 5 questions

5/5 points (100%)

✓ **Congratulations! You passed!**

[Next Item]

✓ **1.** If I miss an assignment deadline or fail an assignment, I fail the course.

1 / 1 points

⚪ True

🔘 False

Correct

No, you won't fail the course. But you should be familiar with how to deal with situations when you fall behind the suggested deadlines. See the How Grading and Being Late on Assignments Works reading in this lesson for details.

✓ **2.** This is a completely self-paced course. The deadlines don't matter at all!

1 / 1 points

⚪ True

🔘 False

Correct

Deadlines still matter. For example, if you miss 2 consecutive deadlines, you will most probably have to switch to a new cohort/session. Otherwise, there won't be any students in this cohort/session that will be able to grade your late assignment.

However, missing deadlines does not lower your grade or make you fail the course.

points

○ True

◉ False

Correct

Deadlines still matter. For example, if you miss 2 consecutive deadlines, you will most probably have to switch to a new cohort/session. Otherwise, there won't be any students in this cohort/session that will be able to grade your late assignment.

However, missing deadlines does not lower your grade or make you fail the course.

In other words, if you miss a deadline, you just need to know what to do in order to continue. See the How Grading and Being Late on Assignments Works reading for more details.

3. I can go through the course faster and complete it faster!

1 / 1
points

◉ True

Correct

Yes, you can! If you want to go faster and finish faster, GO FOR IT! Just remember that you might have to wait for your assignments to be peer reviewed, but there will probably be others who finish faster, so you probably won't have to wait long.

○ False

5. This course covers AngularJS version 2

○ True

◉ False

Correct

No, we are NOT covering Angular 2.

YES, Angular 2 promises to be cool! But it's not released yet as of this course launch and this course is NOT covering it.

We DO cover Angular 2 style component-based architecture and components with Angular 1 though.
