Quiz 2

Practice Quiz, 2 questions

1.

1 point

In order to install Browser Sync, what must be installed first?

- ◯ Javascript

- ◯ Google Chrome Developer Tools

- ◯ Ruby

- ◯ NodeJs

- ◯ Java

2.

1 point

Using GitHub.com in this course is necessary because

- ◯ It's the best thing EVER!

- ◯ It's good to use Git and GitHub uses Git.

- ◯ It's got the word Git in its name! G i t Hub. Git it? 😆

- ◯ Besides being a great Git service, it has the option to turn the repository into a web site, so we can use it to submit solutions to the assignments in this course.

Quiz 2

Practice Quiz, 2 questions

✔ **Congratulations! You passed!**

[Next Item]

✔ **1.** In order to install Browser Sync, what must be installed first?

1 / 1 points

◯ Javascript

◯ Google Chrome Developer Tools

◯ Ruby

◉ NodeJs

> **Correct**
> Browser Sync gets installed using the NodeJS Package Manager (npm) installer, so the correct answer is NodeJs.

◯ Java

✔ **2.** Using GitHub.com in this course is necessary because

1 / 1 points

◯ It's the best thing EVER!

◯ It's good to use Git and GitHub uses Git.

◯ It's got the word Git in its name! G i t Hub. Git it? 😆

Correct

Browser Sync gets installed using the NodeJS Package Manager (npm) installer, so the correct answer is NodeJs.

○ Java

✓

2. Using GitHub.com in this course is necessary because

1 / 1 points

○ It's the best thing EVER!

○ It's good to use Git and GitHub uses Git.

○ It's got the word Git in its name! G i t Hub. Git it? 😖

◉ Besides being a great Git service, it has the option to turn the repository into a web site, so we can use it to submit solutions to the assignments in this course.

Correct

Ok, so that's the correct answer, but it's certainly not as fun as the other answers, don't you think? 😐
