Quiz 42
Practice Quiz, 2 questions

2/2 points (100%)

✓ **Congratulations! You passed!**

[Next Item]

✓ 1. When speaking of testing your code, "mocking" refers to

1 / 1
points

  ○ Teasing other developers who don't test their code. 😜

  ◉ Developer or library creating objects that can serve as substitutes for real services that the test is not testing, but the target code relies on.

> **Correct**
> Correct

  ○ Importing needed libraries for the test to run

  ○ I have no idea, but isn't the proper term Mac-ing as in using a Mac computer?

✓ 2. The function beforeEach is run one time per "describe" function block.

1 / 1
points

  ○ True

  ◉ False

> **Correct**
> Correct. It runs before each 'it' spec, i.e, before each test.
